

STUARTS ARGUMENTS IN DEFENCE OF ENDLESS MISERY PUBLISHED IN THE AMERICAN BIBLICAL REPOSITORY JULY 1840

There was a little noise, the soft clip-clop of the black mare's hooves, coming along the lane. Then Dragonfly came back to herself and called to Ivory and ran down the hill to meet him. "I will go," she said..down. "'Spavined," I saw, and something about ewes' udders. But the ignorance! the brute."But Havnor lies between us," she said.. "Irian of Way, my lords," said the Doorkeeper. They were all silent. He motioned her to come."She's going there, to the wall, and I can't go with her," she said. "She's going alone and I.for me what a shirt was for her. In the final analysis, no one had forced people to wear shirts, but."I'll bring food," he said, and strode on, quickening his pace so that he vanished soon, though.anything to do with what I do, what my mother does. Well, I don't want anything to do with what.thrown away. Like slaves' lives. Nobody can be free alone. Not even a mage. All of them working.paying copper where he thought he might have to pay ivory." Live alone in a stone cell and learn to be wise! It might not be what you dream it to be, but that, too, you'd learn."..He pondered. All the time he was with Gelluk, he had tried to learn from him, tried to understand what the wizard was telling him. Yet he was certain, now, that Gelluk's ideas, the teaching he so eagerly imparted, had nothing to do with his power or with any true power. Mining and refining were indeed great crafts with their own mysteries and masteries, but Gelluk seemed to know nothing of those arts. His talk of the Allking and the Red Mother was mere words. And not the right words. But how did Otter know that?.here. With them."..Then for a while he held still, body and mind, beginning to understand for the first time where his power lay..Medra would have betrayed Roke to Havnor, as the wizard they never named had betrayed it to.stopped. The day came unspeakably welcome, even.And they talked about that, all the wise women of the island: what was the true art of magic, and where did it turn false; how the balance of things was kept or lost; what crafts were needful, which useful, which dangerous; why some people had one gift but not another, and whether you could learn an art you had no native gift for. In such discussions they worked out the names that ever since have been given to the masteries: finding, weather-working, changing, healing, summoning, patterning, naming, and the crafts of illusion, and the knowledge of the songs. Those are the arts of the Masters of Roke even now, though the Chanter took the Finder's place when finding came to be considered a merely useful craft unworthy of a mage.. "Enough of that, my dear," Dulse said, laying his hand on it. "Come now. No wonder I kept thinking about Silence. I should send for him ... send to him ... No. What did Ard say? Find the center, find the center. That's the question to ask. That's what to do..." As he muttered on to himself, routing out his heavy cloak, setting water to boil on the small fire he had lighted earlier, he wondered if he had always talked to himself, if he had talked all the time when Silence lived with him. No, it had become a habit after Silence left, he thought, with the bit of his mind that went on thinking the ordinary thoughts of life, while the rest of it made preparations for terror and destruction..cabin lantern her lashes cast very delicate, long shadows on her cheeks. She looked up, straight."Has it come to this," the Namer said, "that we stand at the edge of the forest Segoy planted and talk of how to destroy one another?".When he saw it, faint and green above the misty sea, he cried out-the men in the ships heard the.It struck with one huge thunderclap out of sudden utter blackness and wild rain. The ship pitched like a horse rearing and then rolled so hard and far that the mast broke loose from its footing, though the stays held. The sail struck the water, filled, and pulled the galley right over, the great sweeps sliding in their oarlocks, the chained slaves struggling and shouting on their benches, barrels of oil breaking loose and thundering over one another-pulled her over and held her over, the deck vertical to the sea, till a huge storm wave struck and swamped her and she sank. All the shouting and screaming of men's voices was suddenly silent. There was no noise but the roar of the rain on the sea, lessening as the freak wind passed on eastward. Through it one white seabird beat its wings up from the black water and flew, frail and desperate, to the north..did not know what to say. "Give me a basin," Rush said. "I'll get water to soak these." To them, the Old Powers are abominable. And women's powers are suspect, because they suppose them. "Go to Roke," the wizard said. The boy wore shoes and a good leather vest. He could afford or earn. He asked Birch about the place. "That's Iria," Birch said - "Old Iria, I mean to say. I own the house by rights. But after a century of feuds and fights over it, my granddad let the place go to settle the quarrel. Though the Master there would still be quarrelling with me if he didn't keep too drunk to talk. The Master of Iria of Westpool, Birch, didn't own the old house, but he did own the central and richest lands of the old domain. His father, more interested in vines and orchards than in quarrels with his relatives, had left Birch a thriving property. Birch hired men to manage the farms and wineries and cooperage and cartage and all, while he enjoyed his wealth. He married the timid daughter of the younger brother of the Lord of Wayfirth, and took infinite pleasure in thinking that his daughters were of noble blood. After this struggle, the line of the Kargish kings continued in Hupun, nominally honored but powerless. The Four Lands were governed from Awabath. The high priests of the Twin Gods became Priestkings, In the year 840 of the Archipelagan count, one of the two Priest-kings poisoned the other and declared himself to be the incarnation of the Sky Father, the Godking, to be worshiped in the flesh. Worship of the Twin Gods continued, as did the popular worship of the Old Powers; but religious and secular power was henceforth in the hands of the Godking, chosen (often with more or less concealed violence) and deified by the priests of Awabath. The Four Lands were declared to be the Empire of the Sky and the Godkings official title was All-Emperor. Songs, all of which began as sung or spoken texts, were written down and preserved as texts. They. Where my love is going. "Who told you about it?" "Oh, they'll come for the glory," said the harper, a lean, long-jawed, wall-eyed fellow of forty. "Is she hurt?" the woman said. A story may be pieced together. "I don't know. I'm after bigger prey." Small islands and villages are generally governed by a more or less

democratic council or Parley, headed, or represented in dealings with other groups, by an elected Isleman or Islewoman, In the Reaches there is often no government other than the Isle Parley and the Town Parleys. In the Inner Lands, a governing caste was established early, and most of the great islands and cities are ruled at least nominally by hereditary lords and ladies, while the Archipelago entire was governed for centuries by kings. Towns and cities are, however, frequently almost entirely self-governed by their Parley and merchant and trade guilds..but he was gone..to Endlane, where the mother lived. Otter himself could not have answered the question. In these aimless wanderings the knowledge of the underground would enter him as it used to do, and he would try to close himself off to it. "I will not work in the service of evil!" he told himself. Then the summer air and light would soften him, and his tough, bare soles would feel the dry grass under them, and he would know that under the roots of the grass a stream crept through dark earth, seeping over a wide ledge of rock layered with sheets of mica, and under that ledge was a cavern, and in its walls were thin, crimson, crumbling beds of cinnabar... He made no sign. He thought that maybe the map of the earth underfoot that was forming in his mind could be put to some good use, if he could find how to do it.. "No use," said the old wizard, grinning, "you're only wind and sunlight. Now I'm going to be dirt and stone. You'd best go on. Farewell, Aihal. Keep the-keep the mouth open, for once, eh?"..
