

S FUR ANFANGER SIEBEN STUFEN ZUR ERLEUCHTUNG IN EINFACHEN SCHRITTE

By the time this operation concluded and the sulphurous Mr. Cain was brought to some form of justice, Simon might have spent twenty or twenty-five percent of the fee that he'd collected from the liability settlement in the matter of Naomi Cain's death. The attorney put a substantial price on his dignity and reputation..By the time he went to bed Saturday night, the cards that had been only that morning were showing signs of wear..Her hands shook as she counted out the fare and the tip from her wallet. "I'm scared sick. Maybe you should just take me right back home."Edom and Jacob came to the house, asking what Dr. Chan had said, and Agnes lied to them. "There are some test results we won't have until Monday, but he thinks Barty is going to be all right."..NOLLY WULFSTAN, private detective, had the teeth of a god and a face so unfortunate that it argued convincingly against the existence of a benign deity..WALLY HAD NOT gone home with Death, but they had definitely been at the dance together..When the attorney finally came on the line, he sounded put-upon, as though Junior were the equivalent of a troublesome toe that he would like to shoot off..Of the three Bartholomews that he'd turned up recently, he chose Prosser because, burdened by the name Enoch, Junior felt sympathy for any girl whose parents had cursed her with Zelda..During Barty's hospitalization, they had graduated from the young adult novels by Robert Heinlein to some of the same author's science fiction for general audiences. Now, pajamaed and in bed, with his sunglasses on the nightstand but his padded eye patches still in place, Barty listened, rapt, to the beginning of Double Star.The round table seated six, but they required only three chairs, because the two brainless friends were a pair of Angel's dolls..He found nothing especially gratifying, switched off the lights, and moved on to the living room. If Cain was coming home, he could glance up from the street and see lights ablaze here, so Vanadium resorted to a small flashlight, always carefully hooding the lens with one hand..In his entire life, Junior had never suffered this much pain without first having killed someone. Reluctant to depart until certain that his student was out of danger physically, emotionally, and mentally, Bob Chicane stayed until three thirty. When he left, he broke some bad news to Junior: "I can't keep you on my student list, man. I'm sorry, but you're way too intense for me. Way too intense. Everything you do. All the women you run through, this whole art thing, whatever all those phone books are about-now even meditation. Way too intense for me, too obsessive. Sorry. Have a good life, man."..of the deceased. This memorial was modest, neither large nor complicated in design. Nevertheless, often the carvers in this line of business followed days after the morticians, because the stones to which they applied their craft demanded more labor and less urgency than the cold bodies that rested under them..around an anemone's mouth, poised to snare, lazily but relentlessly, any passing prize.."Sure. Or why don't I pull a Rumpelstiltskin and demand one of her children for payment' ".Still on her knees, she raised the weapon and realized that she was going to shoot the maniac in the back, that she had no other choice, because her inexperience didn't allow her to aim for a leg or an arm. The moral dilemma overwhelmed her, but so did an image of Phimie lying dead in bloody sheets on the surgery table. She pulled the trigger and rocked with the recoil..Avoiding the graveled driveway, on which he was more likely to scuff his freshly polished loafers, he approached the house across the lawn, beneath the moon-sifting branches of a great pine that made itself useless for Christmas by spreading as majestically as an oak.."You might as well beat a cloud for raining," said Otter's mother..He bought knives. And then sheaths for the knives. He acquired a knife-sharpening kit and spent the evening grinding blades..In January 1965, Magusson had sent Cain to Nolly as a client, not sure why the creep needed a private detective. That had turned out to be the business about Seraphim White's baby. Simon's warning to be careful of Enoch Cain had helped to shape Nolly's decision to withhold the information about the child's placement..Focus. Prepare to kill Bartholomew and anyone who tries to protect Bartholomew on January 12. Prepare for all contingencies..She leaned against the apartment door for a long moment, holding on to the doorknob and to the thumb-turn of the second deadbolt, as though she were convinced that if she let go, she would float off the floor like a cloud-stuffed child..Needlepoint, meditation, and even sex had not recently provided him with significant relief of tension. The paintings of Sklent and the works of Zedd were packed in the van, where he couldn't at the moment take solace from them..Agnes's chilled bones. Pushing a tangle of wet hair away from her face, she realized that her hands were shaking..Perched on a chair with two plump bed pillows to boost her, Angel extracted one crisp strip from her club sandwich and asked Tom, "Where's bacon come from?".."Making too many wrong choices," Grace White said, "produces too many branches-a gnarled, twisted, ugly growth."..Junior had heard of this invention, but until now he'd never seen one. He supposed that an obsessive like Vanadium might go to any lengths, including this exotic technology, to avoid missing an important call..Celestina hadn't noticed the infant being taken away. She had wanted to see it once more, even though she was sickened by the sight of it..From the corn soup to the baked ham to the plum pudding, he did not speak of his dry walk in wet weather..Already the fortune foretold, which she had strived to dismiss as a game with no consequences, was coming true..Holding up his misshapen hands, knobby knuckles toward Agnes, Obadiah said, "How do you think they became like this?"..Tom had acted with the best intentions-but also with the intelligence and the good judgment that God had given him and that he had spent a lifetime honing. Good intentions alone can be the cobblestones from which the road to Hell is built; however, good intentions formed through much self-doubt and second-guessing, as Tom's always were guided by wisdom acquired from experience, are all that can be asked of us. Unintended consequences that should have been foreseeable are, he knew, the stuff of damnation, but those that we can't foresee, he hoped, are part of some design for which we can't be held responsible..Agnes, Celestina, and Grace were soon working together with a harmony that was kitchen poetry. Paul had noticed that most women seemed to like or dislike one another within a minute of their first encounter, and when they found one another companionable, they

were as open and easy on their first meeting as though they were friends of long duration. Within half an hour, these three sounded as if they were of one age, inseparable since childhood. He had not seen Grace or Celestina free of despair since the reverend's murder, but here they were able for the first time to veil their anguish in the bustle of baking and the pleasure of making a new friend. The door was falling shut. With no more sound than the day makes when it turns to night, the detective had gone. Impress the hell out of the hoity-toity types, take their money, and get famous." Hard experience had taught him, however, that killing someone he knew, while occasionally necessary, didn't release stress. Or if it did briefly release stress, then unforeseen consequences always contributed to even worse future stress. Nellie found the strength to rise, but having risen, she was unable to speak. Her mouth shaped words, but her voice deserted her. Renee Vivi spoke with a silken southern accent. Vivacious without being cloyingly coquettish, well-educated and well-read but never pretentious, direct in her conversation without seeming either bold or opinionated, she was charming company. Angel, as if in God's own hands, stared with round-eyed wonder at the physician. With the salt and pepper shakers, Tom walked them through the why-I'm-not-sad-about-my-face explanation that he'd given to Angel ten days previously. II. Otter. To the alleyway again. Not through the clodhopper-cluttered gallery this time. Around the block at a brisk walk. Celestina didn't hear gunfire, but she couldn't mistake the bullets for anything else when they cracked through the door. Into new avenues of the labyrinth he moved, but then back again, back upon his own trail, twisting, turning, from the occult to modern literature, from history to popular science, and here the occult once more, always the shadow glimpsed so fleetingly and so peripherally that it might have been imagination, the scent of a woman no sooner detected than lost again in the perfumes of aging paper and bindery glue, twisting, turning, until abruptly he stopped, breathing hard, halted by the realization that he hadn't heard the singing in some time. Junior put the money on the desk. "Then get into the records of Family Services." Joey was standing just outside, gazing in at her. His blue eyes were seas where sorrow sailed. "I'm interested in one of the smaller Griskins," said Junior, managing to appear calm, although his mouth was dry with fear and his mind spun with crazy images of the maniac cop, dead and rotting but nevertheless lurching around San Francisco. The hospital was drowned in the bottomless silence that fills places of human habitation only in the few hours before dawn, when the needs and hungers' and fears of one day are forgotten and those of the next are. "So entertaining, I felt I should have paid for those seats. When the third machine starts whizzing coins at him, he bolts like a kid running a graveyard at midnight on a dare." Nolly laughed, remembering. O foolish writer. Now moves. Even in storytime, dreamtime, once-upon-a time, now isn't then. By comparison, the strip club-neon aglow, theater lights twinkling---looked warm, cozy. Welcoming. Through the cacophony of shattering glass, splintering wood, and cracking plaster, Paul heard the hard roar of an engine, the blare of a horn, and suspected what must have happened. Some drunk or reckless driver had crashed at high speed into the parsonage. Even someone of saintly habits and selfless behavior might be a monster in his heart, filled with unspeakable desires, which he might act upon only once or never. Junior gave the Raisinets to him, and Google left the theater with his candy and his cash. Studying the brochure, Junior felt that the best response to this artist's work was to go directly into the bathroom, stick one finger down his throat, and purge himself. Considering his medical history, however, he couldn't afford to be such an expressive critic. The Finder. An outrageously sexy redhead hit on him as he selected from an array of bomb-shaped canapes on a tray held by a waiter dressed as a ragged and soot-smearred blast survivor. Myrtle, the redhead, preferred to be called Scamp, which Junior entirely understood. She wore a DayGlo green miniskirt, a spray-on white sweater, and a green beret. The toast now came to Celestina. "To Phimie, who will be with me in memory every hour of every day for the rest of my life, until she is with me again for real. And to ... to this most momentous day." On a shelf above one of the clothes rods stood a single piece of Mark Cross luggage, an elegant and expensive two-suit. The rest of the high shelf was empty-enough space for as many as three more bags. As always, curious about how others lived-or, in this case, bad lived-Junior explored the house, poking in drawers and closets. For a widower, Bartholomew Prosser was neat and well-organized. This venerable old building, as solidly constructed as a castle, was well-insulated; noises in other apartments rarely penetrated to Junior's. Never before had he heard a neighbor's voice distinctly enough to comprehend the words spoken-or, in this case, sung. MONDAY MORNING, January 17, Agnes's lawyer, Vinnie Lincoln, came to the house with Joey's will and other papers requiring attention. "Can't change your own form, even seemingly?" Returning to his apartment, Edom had to pass under the limbs of the majestically crowned oak that dominated the deep yard between the house and the garage. "And," Joshua cautioned, "you better prepare for a long day. I'm pretty sure Dr. Chan will want to consult with an oncologist." He didn't rely, either, on a sixth sense to detect obstacles or open spaces, which some blind people claimed to have. Sometimes instinct told him that in his path was an object that ordinarily would not have been there; but as often as not, it went undetected, and unless he was using his cane, he tripped over it. The sixth sense was greatly overrated. He would have liked to take Industrial Woman, as well, but she weighed a quarter ton. He couldn't manage her alone, and he dared not hire a day worker, not even an illegal alien, to assist him, and thereby compromise the Pinchbeck van and identity. Celestina expected to be taken to a waiting room, but instead the nun escorted her to surgical prep. Barefoot, in midnight-blue silk pajamas, he walked through his rooms turning on lights in a considered pattern, which he had settled upon after much thought and planning. When Paul arrived with a Christmas gift, Perri was abed, wearing Chinese-red pajamas, reading Jane Austen. A clever contraption of leather straps, pulleys, and counterweights assisted her in moving her right arm more fluidly than would otherwise have been possible. A lap stand held the book, but she could tam the pages. Rubbermaid container from his own pantry. Junior would never again use it to store leftover soup. In a swirl of London Fog and righteous indignation, Neddy turned his back on Junior and drifted away through the nibbling, nattering crowd. The word need, instead of want, moved Paul to follow the doctor across the

coffee shop..If they were suspicious of him, they showed no obvious alarm. The three went inside in no particular rush, and judging by their demeanor, Junior decided that they hadn't spotted him, after all..Shortly after six o'clock, Saturday morning, she stirred from a fretful dream and saw Barty sitting up in bed, reading..By the time he got to the cooler, he could see this wasn't smoke, after all. It dissipated too quickly. Cool against his hand. The cold steam from dry ice..2000, the Year of the Dragon, gives way without a roar to the Year of the Snake, and after the Snake comes the Horse. Day by day the work is done, in memory of those who have gone before us, and embarked upon work of her own, young Mary is out there among you. For now, only her family knows how very special she is. On one momentous day, that will change..She was not yet twenty-one, and he was at least twice her age, but he leaned like a small child against her, and like a mother she comforted him..Opening his eyes, still not daring to meet Victoria's gaze, Junior knew she had registered and properly interpreted his response to her seductive spooning. She had frozen, the utensil in midair, and her breath had caught in her throat. She was thrilled.. "Please try not to be alarmed, Miss White, but I have a patrol car on the way to your address." Through tears, that night, she asked him if the commitment he was making didn't frighten him..He hadn't seen Thomas Vanadium since Monday, at the cemetery, and Vanadium hadn't pulled any tricks since leaving twenty-five cents at his bedside that same night. Almost four days undisturbed by the hectoring detective. In matters Vanadium, however, Junior had learned to be wary, prudent..By lunch, he had turned the final page, and he was so full of the tale that he seemed to have no room for food. While his mother kept reminding him to eat, he regaled her with the details of John Thomas Stuart's great adventures with Lummo, as though every word that Heinlein had written were not science fiction, but truth..At the farthest end of the loft from the stereo speakers, voices nevertheless had to be raised in even the most intimate exchanges. The artist who had created *In the Baby's Brain Lies the Parasite of Doom, Version 6*, however, possessed a voice as deep, sharp-edged, and penetrating as his talent..After two years of rehabilitation, Tom had been pronounced as fit as ever, a miracle of modern medicine and willpower. But right now he seemed to have been put back together with spit and string and Scotch tape. Arms pumping, legs stretching, he felt every one of those eight months of coma in his withered-and-rebuilt muscles, in his calcium depleted-and-rebuilt bones..Maria Elena Gonzalez-no longer a seamstress in a dry-cleaners, but proprietor of Elena's Fashions, a small dress shop one block off the town square-joined Agnes, Barty, Edom, and Jacob on Christmas.His body ached, too, especially his back, from the battering that he had taken. He remembered hitting the floor with his chin, and he supposed that he might have gotten knocked about the face more than he realized or remembered. If so, there would be bruises soon, but bruises would fade with time; in the interim, they might make him even more attractive to women, who would want to console him and kiss away the pain-especially when they discovered that he had sustained his injuries in a brutal fight, while rescuing a neighbor from a would-be rapist..Beveled, crackled, distorted, divided into petals and leaves, Deed's face beyond the lead-ad glass, as he leaned closer to try to peer inside, was the countenance of a dream demon swimming up out of a nightmare lake..The boy didn't at once answer, and when Agnes looked up from Red Planet, she saw that he was staring oddly at her. He squinted, as if puzzled, and said, "The twisty spots just jumped off the page right up on your face." Kathleen hadn't noticed Tom replace his glass on the table, over the quarter. When he lifted it to drain the last of the martini, two dimes and a nickel glittered on the tablecloth, where previously the quarter had been.. "That's the roaster tower," said Licky. "Where they cook the cinnabar to get the metal from it. Roasters die in a year or two. Where to, dowser?" More than twice, worried nurses-and even a resident internist braved the tumult to check on Junior's condition. They asked if he really felt up to entertaining visitors, these visitors..She could have gone at him with the chair once more, but it was falling apart. Instead, she abandoned furniture for the promise of a firearm, dropped to her knees, and snatched the discarded pistol magazine off the floor..He slid his plate aside. From a pocket, he withdrew a quarter, which always served him as well with children as with murderers.. "Wally," Celestina said, without hesitation, because suddenly she saw something of a Wally in his green eyes, which were livelier than they had been before.. "Better. Fear doesn't require him even to seduce a woman or to buy a bottle of whiskey. He just needs to open himself to it, and he will be filled like a glass under a faucet. As difficult as this may be to comprehend, Cain would choose to be neck-deep in a bottomless pool of terror, desperately trying to stay afloat, rather than to suffer that unrelieved hollowness. Fear can give shape and meaning to his life, and I intend not merely to fill him with fear but to drown him in it." Jacob intended to carry the luggage, and Edom announced that he would carry Barty. The boy, however, insisted on making his own way to the house..He was a pretty good detective, but as regarded the minutiae of daily life, he wasn't as organized as he would like to be. He never remembered to set aside his holey socks for darning; and once he had worn a hat with a bullet hole in it for nearly a year before he'd at last thought to buy a new one..To achieve certain narrative effects, I've fiddled slightly with the floor plan and the interior design of St. Mary's Hospital in San Francisco. In this story, the characters who work at St. Mary's are fictional and are not modeled after anyone on the staff of that excellent institution, either past or present..Tommy James and the Shondells, good American boys, had a record farther down the charts-"Hanky Panky"-that Junior felt was better than the Beatles' tune. The failure of his countrymen to support homegrown talent aggravated him. The nation seemed eager to surrender its culture to foreigners.. "That's enough?" "Silly man." "Cain looks like a movie star." "Does he have nice teeth?" she asked. "They're good. Not perfect." "So kiss me, Mr. Perfect." This didn't seem strange to him. Among the many things that no longer mattered were the concepts of distance and time.. "I was never Cary Grant, to begin with," said Vanadium, still ceaselessly rolling the quarter across his fingers, "so I had no big emotional investment in my appearance. Cosmetic surgery would have added another year of recuperation time, probably much longer, and I was anxious to get after Cain. Seemed to me this mug of mine might be just the thing to scare him into an incriminating mistake, even a confession." Reading the dates on the headstone, he saw that the minister's

daughter had died on the seventh of January, the day after Naomi had fallen from the fire tower. If ever asked, Junior would have no trouble accounting for his whereabouts on that day..Sapphires and emeralds, dazzling gems set in clearest white, ebony pupils at the center. Beautiful mysteries, these eyes, but no different now than they had ever been, as far as she could tell..By ones and twos, the festive crowd eventually deconstructed, but for Celestina, an excitement lingered in the usual gallery hush that rebuilt in their wake..To his surprise, when Naomi expressed an interest in romance, Junior was a bull again. He would have thought he had left his best stuff at Reverend Harrison White's parsonage..Dinner was cooking in the upper of the two ovens. He switched the bottom oven, setting it at warm, and dropped open the door..Mary was at play here, and the sight of her, his first in seven years, almost brought Barty to his knees. She was the image of her mother, and he knew that this must be at least a little bit what Angel had looked like when, at three, she had initially arrived here in 1968, when she explored the kitchen on that first day and found the toaster under a sock.
