Yet being.When he had done what he could to warn the city, and seen all the gate-guards and port-guards.Of late, entering always deeper into the mysteries of a certain lore-book brought back from the Isle of Way by one of Losen's raiders, Gelluk had become indifferent to most of the arts he had learned or had discovered for himself. The book convinced him that all of them were only shadows or hints of a greater mastery. As one true element controlled all substances, one true knowledge contained all others. Approaching ever closer to that mastery, he understood that the crafts of wizards were as crude and false as Losen's title and rule. When he was one with the true element, he would be the one true king. Alone among men he would speak the words of making and unmaking. He would have dragons for his dogs..yes! This is the way." And he stalked off towards the Overfell, angry with the boy for coming and with himself for giving in; but it was not anger that made his heart pound. Striding along-he could stride, then-with the seawind pushing at him always from the left and the early sunlight on the sea out past the vast shadow of the mountain, he thought of the Mages of Roke, the masters of the art magic, the professors of mystery and power. "He was too much for 'em, was he? And he'll be too much for me," he thought, and smiled. He was a peaceful man, but he did not mind a bit of danger..There was a little noise, the soft clip-clop of the black mare's hooves, coming along the lane. The peacefulness of the place called for stillness, watching, listening; and she knew how tricky the paths were, and that the Grove was, as the Patterner put it, "bigger inside than outside'. She sat down in a patch of sun-dappled shade and watched the shadows of the leaves play across the ground. The oakmast was deep; though she had never seen wild swine in the wood, she saw their tracks here. For a moment she caught the scent of a fox. Another time he said, "My words are nothing. Hear the leaves." That was all he said that could be called teaching. As she walked, she listened to the leaves when the wind rustled them or stormed in the crowns of the trees; she watched the shadows play, and thought about the roots of the trees down in the darkness of the earth. She was utterly content to be there. Yet always, without discontent or urgency, she felt that she was waiting. They put off and took on cargo at ports on the north shore of O, at Ilien, Leng, Kamery, and O Port, and then headed west to carry the passengers to Roke. And facing the west Ivory felt a little hollow at the pit of his stomach, for he knew all too well how Roke was guarded. You came here through the walls of our prison. Seeking freedom, you say. But you should know that leaving Roke may be even harder than coming to it. Irioth began to say the words that would bind him, and the shaken man cowered away, shrinking down, shriveling, crying out in a thin, high wail. It is wrong, wrong, I am doing the wrong, I am the ill, Irioth thought. He stopped the spell words in his mouth, fighting against them, and at last crying out one other word. Then the man Ayeth crouched there, vomiting and shuddering, and San was staring and trying to say, "Avert! Avert!" And no harm was done.
